THE LATEST TRENDS IN LIGHTING DESIGN

SUPPLIERS YOU SHOULD KNOW

CID speaks to Julie Sage, sales and marketing manager, Alger-Triton.

Tell us about your company. Alger-Triton International is a leading custom decorative lighting manufacturer for the hospitality industry. We have completed installations for a robust portfolio of clients, including Marriott, Hyatt, Hilton, Four Seasons, Ritz Carlton, St. Regis and Westin, to name a few.

What sets you apart? Hallmarks of Alger-Triton include commitment to quality products and creativity. Enhanced manufacturing methods, larger and more experienced production teams, library archives and fixture moulds, and an augmented database of clients have come together to create a company with phenomenal procurement strength and unlimited capabilities. We offer exceptional service driven by design. If you can imagine it, we can create it.

Key trends in lighting? Incorporating new materials into the creative process is essential to the art

of decorative lighting, and Alger-Triton prides itself on bringing a unique assortment to each and every project. Hand-blown Murano glass creates for various styles, unlimited colours and scale, for lighting fixtures and decorative walls, as shown in the installations for the Wynn Encore in Las Vegas. Alger-Triton is also known for its use of a variety of materials, including Austrian crystal, rich alabaster, elaborately carved ebony resin and forged wrought iron.

Recent developments? Alger-Triton's plans to grow have reached beyond its core brand. Sister company, Wired Designs' gallery-inspired showrooms can be found in London's Chelsea Harbor. Other locations include New York, Miami and Los Angeles. Wired specialises in high-end residential chandeliers and wall sconces. Stay on the look out for our move to the Middle East, Russia and Asia.

How do we contact you? Please visit us at www.alger-triton.com. Tel: +1 (310) 229-9500; email us at: sales@alger-triton.com.

CID catches up with the Debbas team.

Tell us about your company. Debbas Group has been at the forefront of the regional lighting industry since the early days of electricity. Established 100 years ago, a small commercial space dedicated to new and innovative products grew into a one-of-a-kind technology provider to high-end construction projects. Today, Debbas Group strives to provide world-class turnkey solutions to help its clients realise today, the human spaces of tomorrow.

What sets you apart? Debbas Group has the capacity, the network, the technology and the human capital to provide highly customisable solutions through five major operational clusters: MEP contracting, lighting, integrated systems, manufacturing and trading. Yet, the most important differentiator for the group is its distinctive ability to foster long-lasting relationships with some of the world's most important lighting brands, designers and consultants in order to provide enhanced and uncompromised support to

its clients. Debbas Group is determined to be the best technology solution provider by delivering the finest and most advanced solutions.

Key trends in lighting? The lighting industry is utterly focused on reducing its toll on the environment. With this in mind, the pursuit of energy efficient and sustainable lighting solutions is done through the use of efficient products and carefully-engineered lighting systems. At Debbas, the engineering corps is capable of handling the most severe green building guidelines in order to provide sustainable living spaces.

Recent developments? Debbas Group is currently celebrating the centennial of its foundation!

How do we contact you? Debbas Group has operations in 16 countries. Find out more by logging on to www.debbas.com. Dubai office: Debbas Electric, PO Box 30571, Dubai, UAE, Zaabeel Road, Karama. Tel: +971 (0)4 335 0006; fax: +971 (0)4 335 3543; email: info@debbas.ae.
